

# Kick the Can out of Your Transport Carts with **EnduraHeat**<sup>®</sup>

## Transport bulk foods and keep them warm for two hours... Unplugged!

EnduraHeat's unique heat retention system allows you the flexibility to transport food anywhere and not have to worry where you'll find the next electrical outlet or spend money on chafing fuel. Just charge the heating system, load your pans, unplug and go! EnduraHeat will radiate warmth throughout the cabinet for two hours and keep your food at serving temperature.

Unplug your heated transport and eliminate the expense, hassle and risk of open flame. EnduraHeat keeps food at serve safe temperature for up to two hours with this innovative, patented heat retention system.

- Eliminate the expense of canned fuel
- Eliminate fire hazard
- Eliminate scorched food and pans
- Eliminate the labor required to light and monitor canned fuel
- Eliminate fuel fumes that affect food flavor

Winner of the Kitchen Innovations 2008 Award  
presented by the National Restaurant Association  
Restaurant, Hotel-Motel Show
